<p><i>The parts listed below are just a selection of new parts added to our stock - see main lists for others. In less than 6 years of trading, we have yet to turn a profit, largely because we have ploughed all income back into manufacturing more new parts (contrary to misleading claims made elsewhere...) Hopefully our spares lists speak for themselves. Our main aim is to identify genuinely hard to source parts - not just commercially viable ones - and have them re-manufactured as economically as possible without compromising quality.</i></p>
